ABOUT ME

BSc (Hons) in Information Technology undergraduate at SLIIT, specializing in Information Systems Engineering. Highly motivated fast-learner with hands-on experience in MERN stack development, system analysis, and Agile project leadership. Skilled in translating complex business requirements into secure, scalable, and efficient software applications. Proficient in leveraging AI-powered development tools to accelerate software delivery while maintaining clean code architecture and robust security practices. Possesses a strong analytical mindset geared toward process optimization, technical documentation, and cross-functional team collaboration to deliver impactful digital solutions.

EXPERIENCE

Intern Web Developer (Freelance & Academic)

- Agile Project Leadership: Acted as the Scrum Master and Project Leader for university semester projects, successfully managing end-to-end development lifecycles, sprint planning, and team backlogs via Jira.
- Freelance Web Development: Developed and delivered multiple full-stack E-commerce websites for clients, focusing on intuitive UI layouts, custom configurations, and smooth user journeys.
- Collaborative Engineering: Assisted as a Junior Developer on various web-based system integrations, ensuring secure data handling and seamless frontend-backend communication.
- Open-Source & Version Control: Maintained structured version control practices across all academic and commercial projects, hosting clean, documented repositories on GitHub for code transparency.

MY EDUCATION

BSc (Hons) in Information Technology specializing in Information Systems Engineering

- SLIIT MALABE UNI
- 2024 – Present (Reading)

Certified Level 01

- AAT Sri Lanka

Unlock the Power of Data with Power BI

- Microsoft (via Coursera) | Issued: Jul 2026

Verification Link

- Certified Level 01

AI/ML Engineer - Stage 1

- Centre for Open and Distance Education (CODE), SLIIT | Issued: Jun 2026

Verification Link

- Certified Level 01

Foundations of Project Management

- Department of Civil Engineering, University of Moratuwa | Issued: 2026

Verification Link

- Certified Level 01 (Code: 15ca5GThNR)

Claude Platform 101

- Anthropic | Issued: 2026

Claude Code 101

- Anthropic | Issued: 2026

Introduction to Claude Cowork

- Anthropic | Issued: 2026

The Hour of Code

- Code.org

Diploma in Psychology and Counselling

- IMBS Campus

G.C.E. Advanced Level (A/L)

- Anuradhapura Central college
- Commerce Stream | Year: [2023/24]
- Results: [C C C] | Index No: [8037175]

G.C.E. Ordinary Level (O/L)

- Walisinghe Harischandra College
- Results: Achieved 3 As (Buddhism, History, Sinhala), 5 Bs, and 1 C| Year: [2020]
- Index No: [63367564]
- Successfully upgraded English language proficiency to a "B" pass in the second attempt of the G.C.E. Ordinary Level examination [Index:12909777 | Year:2021]

SKILLS

Project & Professional Skills

- Agile/Scrum Project Leadership (Jira)
- System Analysis & Design (UML & ER Diagrams)
- Business Process Modeling & Requirement Engineering

- Authentication (MFA) & Secure Payment Gateways
- Strategic Planning, Budgeting & Task Management

Technical Skills

- Programming: Java, PHP, JavaScript, HTML/CSS
- Frameworks: React, Node.js, Express.js (MERN Stack), React Native
- Databases: MongoDB, MySQL, Firebase (Cloud Firestore)
- Tools: Git, GitHub, Postman, MS Visio, Draw.io, Multer, Arduino IDE
- Environments: Linux (Ubuntu), WSL, VirtualBox, Shopify

PROJECTS

Bakery Management System (Sweet Delights)

- Developed a multi-role ERP system featuring secure admin approval workflows and 4-digit PIN Multi-Factor Authentication (MFA).
- Integrated an omni-channel cart system with a virtual payment gateway and relational delivery tracking.
- Served as the Project Leader for a team of 7, managing tasks and sprints via Jira.
- GitHub: https://github.com/GayanGC/bakery-app-ise

Property Sales Management System

- Backend: Developed a robust REST API using Java and MySQL to streamline real estate operations.
- Architecture: Designed comprehensive UML and ER diagrams to map system architecture before development.
- Core Functionality: Implemented secure user management and property data handling with RESTful endpoints.
- GitHub: https://github.com/GayanGC/property-sales-backend

User Login & Profile Management System

- Tech Stack: PHP, MySQL, HTML/CSS
- Implemented a secure authentication system featuring password hashing and dynamic profile image uploads.
- GitHub: https://github.com/GayanGC/php-login-system

Advanced Air Drawing Whiteboard | Python, OpenCV, MediaPipe, NumPy

- HCI Integration: Developed an AI-powered virtual whiteboard using Google's MediaPipe Tasks API for responsive, 21-point real-time hand landmark tracking.
- Gesture Recognition: Programmed intuitive gesture-based actions, including 1-finger drawing, 2-finger color switching via a custom HUD overlay, and palm-detection with a 0.6s hold-to-clear canvas feature.
- Image Processing: Leveraged OpenCV and NumPy for high-performance canvas matrices, real-time rendering, and smooth anti-aliasing.
- GitHub: https://github.com/GayanGC/Air-Drawing-Project.git
